

Introducing: TOPTRAYS (patent pending)

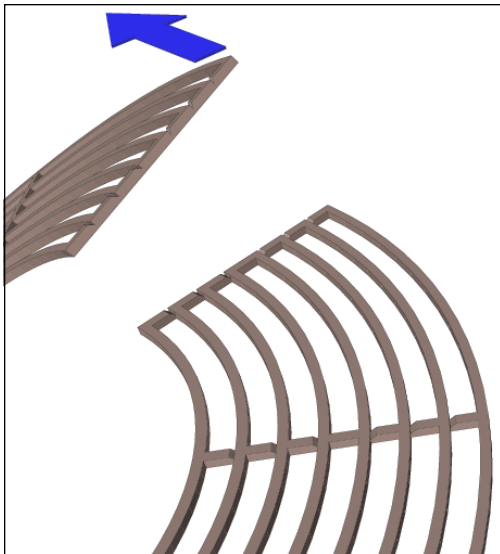

Easy installation:

Size the TOPTRAY by snapping off the outer and inner rings where necessary, to accommodate both the plant and the decorative pot.

Place the plant into the decorative container.

Bend the TOPTRAY open, and place it around the base of the plant.

Let the TOPTRAY rest on the top of the grow pot. Add your choice of top dressing, such as PolyPebbles, or moss.
